

**“Practical Excellence in Restorative
Dentistry: Integrating Modern Technologies
with Proven Techniques”**

**Robert A. Lowe, DDS,
FAGD, FICD, FADI, FACD, FASDA
Diplomat, American Board of Aesthetic Dentistry**

Restorative services are the “backbone” of every general dental practice. The art and science of dentistry is an “ever expanding palate” of new materials and techniques that can expand the number and quality of services that we offer our patients. Effective integration of emerging technologies in dentistry will help to differentiate and grow your dental practice.

In this technique filled seminar, Dr. Lowe will teach you the skills you need to refine your restorations to a level that will help you create consistent quality. New technologies and techniques will be discussed along with how implementation of these technologies can help elevate the level of service to your patients. Don't miss this technique-oriented seminar that is geared toward delivering useful clinical information that can be implemented in practice immediately having a positive impact the quality of your dentistry and on the "bottom line" of your practice!

Modern Composite Restorative Dentistry: A Blend of Artistry, Technology, and Technique

- a. Techniques to create lifelike anterior and posterior direct composite restorations will be demonstrated in step-by-step detail.
- b. Bulk fill materials and methods will be discussed and demonstrated that simplify the placement of Class 2 composites.
- c. Early diagnosis and minimally invasive restorative techniques and bioactive dental materials.

Creating Functional and Aesthetic "World Class" Crown and Bridge Restorations

- a. Morphology and Occlusion based on the teaching and philosophy of Dr. Harold M. Shavell
- b. Tissue management for perfect impressions: The basis for quality dentistry
- c. Biologic provisionalization for fixed prosthodontics
- d. Cementation protocols for total etch and conventional cements: Biologic parameters that dictate cement choice.
- e. Creative Treatment Planning: When It Doesn't Go By The Book

The purpose of this course is to demonstrate in a detailed step-by-step fashion, procedures that if practiced can impact on your ability to deliver an improved level of artistic and functional dentistry in your practice tomorrow!
