

November 13, 2017

Dear Potential Exhibitor:

The South Carolina Academy of General Dentistry is an association committed to providing top-notch continuing education to dentists in South Carolina and the surrounding region. Through the Academy, practitioners can stay on the cutting-edge of modern dentistry, learning new techniques while being introduced to ever-improving materials.

In order to continue providing didactic programs of a national caliber, it is critical that we nurture a mutually beneficial alliance with corporate sponsors. Our sponsorship opportunities now focus on an annual meeting and high volume exposure between vendors, sponsors and attendees. With nearly all junior and senior dental students as members of the AGD, this should prove to be valuable. Below and on the following page is a brief overview of our annual meeting as well as the sponsorship opportunity available. Full brochure is available at SCAGD.net. We thank you so much for your consideration. Our top priority is to once again exceed the expectations of both our sponsors and attendees alike.
